

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

SERIOUS REVOLT OCCURS IN FINLAND

Many Hundred Loyal Troops are Killed

SPECIAL TO THE DAILY DISPATCH:

Helsingfors, Finland, July 31, 1:45 p. m.—A portion of the garrison of Sveaborg, Finland mutinied last night and a long and sanguinary struggle took place between the mutineers and loyal troops in which the former are said to have been victorious. The mutineers are now in possession of the fortress. The artillerymen joined the mutineers, but the infantry remained loyal. The artillery trained guns on the loyal troops, 500 of whom were killed or wounded. Later reports say fierce fighting continues at Sveaborg. Up to mid day today over 600 men were killed or wounded. Warships are now bombarding the fortress. The inhabitants of Helsingfors are in a state of panic.

RESUME HOSTILITIES

ARMENIANS, TARTARS AND RUSSIANS WAGE GORY WAR AT SHUSHA AND VICINITY.

MANIFESTO TO THE PEASANTS

URGES THE MASSES TO RISE AND OVERTHROW THE GOVERNMENT OF RUSSIA.

St. Petersburg, July 31.—As anticipated in these dispatches July 29 the triangular truce between Armenians, Tartars and the Russian troops before Shusha was of the briefest nature. The display of white flags and the naming of representatives of the warring factions to arrange a lasting peace was but a prelude to the resumption of hostilities Monday upon a larger and bloodier scale. The fighting is not only in full progress at Shusha itself, a town of 30,000 people, 180 miles to the southwest of Tiflis, the Tartar quarter of which apparently is in flames, but it has spread to the surrounding country. There the Tartar population has risen and is striving to overwhelm the Armenians and the Russian troops.

General Zoloshakov, in command of the Russian forces, has appealed urgently for reinforcements. A battalion of riflemen at Yelissavetpol, the nearest point where there are soldiers, already has been dispatched to the scene.

It is worthy of note that the Russians who in the disorders of last year were accused of protecting the Tartars from Armenian attack, are now themselves hard pressed by the Mohammedan hordes.

MANIFESTO TO THE PEASANTS.

Urges the Masses to Rise and Overthrow the Government.

St. Petersburg, July 31.—The public prosecutor has started proceedings against the members of the lower house of parliament who signed the Viborg manifesto under which the signers of the manifesto will be brought to trial on a charge of violation of Article 129 of the criminal code, which provides for "attempts to overthrow the existing government." This is virtually high treason and the maximum penalty is hard labor in the mines.

No arrests yet have been reported and the Constitutional Democrats do not anticipate anything approaching punishment of their representatives. It is understood that the arrested men will be admitted to bail pending trial. The Constitutional Democrats are chiefly apprehensive that the possibility of prosecution held over the heads of their leaders will render them ineligible for re-election in the same manner that Professor Milukoff and M. Hessel and others were excluded from the last lower house.

Socialist and radical members of the late house may have to cool their heels in cells for a long time, and thus be prevented from continuing the full fledged revolutionary agitation upon which they are now embarked. Many of these ex-members are now living under cover in the houses of friends in St. Petersburg or have gone into hiding in the provinces. A correspondent of the Associated Press Monday

met two peasant ex-deputies who had cut off their luxuriant hair and beards and who could scarcely be recognized.

Manifesto to the Peasants.

A manifesto to the peasants of Russia has been issued in the joint names of all the various labor, socialist and revolutionary organizations including the representatives of these organizations in the defunct lower house. This manifesto declares that the hopes reposed in the lower house of parliament have been blasted by the diabolical designs of the crowd of grand dukes, courtiers and wealthy land proprietors assembled around the emperor, whose only purpose can be the maintenance of their power over the people. By dispersing the elected representatives of the people and arresting and imprisoning them the government has declared war on the nation, and a struggle is beginning in which rivers of blood will flow, and for which the criminal government is responsible. The people must not spare the government.

This manifesto further accuses the government of betraying the fatherland by invoking the aid of German and Austrian troops. The people are therefore urged to remove the authority everywhere, to replace it with men elected by themselves and to confiscate all state funds. The troops also must conform to the orders of those elected by the people.

The manifesto calls for elections on the basis of universal suffrage and concludes with the words:

"Down with the government and the emperor! Long live the dear and free Russian people!"

ATTACK ASKERAN PASS.

Tartars Fail to Break Cordon of Armenians.

St. Petersburg, July 31.—Advices received here from Tiflis show that a regular campaign is progressing between Armenians and Tartars in that section. Monday large forces of Tartars attacked Askeran pass, which was occupied by Armenians, but were unable to break the Armenian cordon. Fighting is now going on in the villages of Haramurt, Haladad and Karanlukh. The Tartars are concentrating against Askeran pass.

On July 27, Kurds attacked the villages of Kaiballikened and Kiermishchan and were endeavoring to force an entrance into Shusha. At the latter place they were repulsed by Russian troops under General Zoloshakov.

News received here from Yelissavetpol says that communication between Agdam and Shusha has been interrupted for five days. Firing between Armenians and Tartars continued from July 25 to July 28. The fighting near Shusha increased in severity on July 29 and resulted in the burning of the town. The government has dispatched reinforcements to the scene.

CAUSED A SENSATION.

Russian Soldier Contradicts an Archbishop in Church.

Odessa, July 31.—A common soldier caused a remarkable sensation in the cathedral here by arising in the body of the church during service and contradicting certain political statements of the archbishop, uttered from the pulpit.

A thanksgiving service for the dissolution of the lower house of parliament was being held in the cathedral. It was attended by all the local authorities. The archbishop arose and declared among other things that the members of the opposition were anarchists and enemies of the state. When he had finished a soldier got up and began to make a speech. He said it was not the opposition, but men like the archbishop, who were the

real enemies of the state. A scene of great confusion ensued, amid which the soldier was arrested and taken to prison.

Thousands on Strike at Moscow.

Moscow, July 31.—A strike has broken out here among the bakers, who are striving to obtain a betterment in their working conditions and Sunday for a day of rest. According to the council of workmen the total number of men now on strike in Moscow has reached 18,000, in addition to which the Voskressensky factory Monday locked out 2,000 employees.

Mutineers Dispersed.

Krasnovodsk, July 31.—A company of the railroad battalion stationed here mutinied and accompanied by a mob of workmen marched to the jail and endeavored to set at liberty the participants in the recent disorders at Lashkert, who have been in prison here. The battalion guarding the jail remained loyal and dispersed the mutineers.

Official and Policeman Killed.

Warsaw, Russian Poland, July 31.—M. Burago, the leading official of the Sochatchew district, and a policeman who was escorting him, were shot dead by revolutionists near here in revenge for the part they had taken in the repression of the agrarian strike movement.

Strikers Arrested.

Odessa, July 31.—The police have arrested fifty employees of the customs house who were on strike. An anarchist threw a bomb into a shop here and wounded a clerk. The bomb-thrower was arrested.

City Devastated by Fire.

Kuznetsk, July 31.—A large part of this city, which has a population of 25,000 people, has been destroyed by fire. The losses are heavy.

SENSATIONAL SUICIDE.

Kansas Man Ends His Life With Dynamite Before a Crowd.

Wellington, Kan., July 31.—In full view of hundreds of spectators, powerless to interfere, Graham T. Dibbs blew himself into shreds with dynamite. Dibbs walked down Washington avenue carrying a package of dynamite. In front of the Wellington National bank he stopped, tied the package about his neck and produced a fuse, which he deliberately lighted. Dibbs slowly blew out the match with which he had lighted the fuse and tossed it toward the crowd. As the fire crept toward the package around Dibbs' neck, he shouted to the spectators to get out of the way of the explosion. Then he seemed to lose courage. He began to pull and tug at the package and at the fuse, but it was too late to avert the explosion. A hole was torn in the street where Dibbs had stood, but no trace of the body could be found near the scene. Small bits of clothing and flesh were found several rods away. The explosion shattered the windows in nearly every house in town.

Dibbs, who was a railroad employee, was despondent over an unsuccessful love affair.

YOUNG DIETZ MAY DIE

SON OF THE WISCONSIN SETTLER IS LIKELY TO SUCCUMB TO HIS WOUND.

Birchwood, Wis., July 31.—William Dackozita, the wounded deputy from the Dietz Cameron dam trouble, passed through here Monday en route to a hospital at Hayward. His wounds are not dangerous, while those of Clarence Dietz, the son of John F. Dietz, are considered fatal, his brain being exposed to view. At present everything is quiet at the Cameron dam.

Milwaukee, July 31.—Arthur J. Hoepf, the Milwaukee man who led the forces with Sheriff Gylland of Sawyer county in the unsuccessful attempt to capture John Dietz last week, will leave here to meet Sheriff Gylland to confer with state officials as to the best method of capturing the much-wanted homesteader of Cameron dam. Troops will be asked for. Mr. Hoepf expects to return to Milwaukee in a few days, although he may, if necessary, remain at Winter until Dietz is captured.

No Call Made for Militia.

Madison, Wis., July 31.—Governor Davidson says he has not been asked to send militia to help capture John Dietz, holder of the Thornapple dam. The governor says he does not intend to send the militia on his own initiative.

Dowie's Plans Unchanged.

Mexico City, July 31.—John Alexander Dowie has telegraphed to friends in this city that his Mexican plans remain unaltered and are, if anything, more firmly established than ever.

MAY BE TWO TICKETS

REPUBLICANS OF IOWA APPEAR UNABLE TO ADJUST THEIR DIFFERENCES.

VERY BITTER FEELING EXISTS

STATE CENTRAL COMMITTEE TO ASSUME JURISDICTION OVER CONTEST.

Des Moines, Ia., July 31.—The Republican state central committee met and decided by a vote of six to three to sustain the action of the chairman of the committee in notifying Governor Cummins that the seats of a number of delegates to the Republican state convention were contested. By the same vote, the action of Chairman Spence in calling the present meeting of the state central committee was ratified. In both cases it appears the chairman acted upon his own responsibility. He received a petition from adherents of George D. Perkins, a candidate for governor, giving notice that the seats of a large number of Cummins delegates were contested. The chairman thereupon sent notice of this fact to Governor Cummins, who seeks a renomination.

The governor replied in a letter denying the authority of the chairman of the state central committee to take up the matter of contests, asserting that he had no jurisdiction. The chairman, however, sent notices to several newspapers calling the state central committee to meet in Des Moines to consider the contests. His explanation to the committee was that two or three of the members were in Des Moines at the time, and after consulting them and receiving their approval he felt justified in taking the action he did in order that the delegates whose seats were contested might have two or three more days notice than they would have had if he had called the committee together and submitted to it the petition and the question of a call for the meeting.

The vote of six to three was regarded as an indication that the committee intended to assume jurisdiction of the contest and to hear the contestants and the Cummins delegates in case the latter entered an appearance. There are 1,640 delegates entitled to seats by the state convention from the 99 counties in the state. When the committee met here there were ten of the eleven members present. Thomas F. Bevington, an attorney representing the friends of George D. Perkins, gave notice of the contests in ten counties

involving 195 delegates and protests in the case of two counties which have 92 delegates, making 287 delegates objected to.

Irregularities Alleged.

As to the contests, the grounds alleged are "irregularities," and the accepting of Democratic votes for Cummins delegates. As to the protests, the objections were technical.

The committee took up and heard a number of the cases but reached no conclusion. Although Governor Cummins had given notice that he would not be represented before the committee, the chairman of three Cummins delegations whose seats are in question appeared. They stated that they denied the jurisdiction of the state committee, who, they contended, had no authority to go behind the returns, simply coming before it for the purpose of furnishing any information that might be desired.

Such a situation as that now existing in Iowa is new to the Republicans of this state. The party is apparently divided into two factions—one known as the "Progressives," represented by the friends of Governor Cummins, and the other called the "Stand-patters," who are adherents of George D. Perkins. The feeling on both sides is very bitter and it is not unlikely that there may be two Republican tickets in the field in Iowa after next Wednesday.

The indications now are that the committee will decide to let in all of the contesting delegates. It is quite possible, it is said, that some may be put on the temporary roll, but not enough to give the "stand-patters" control of the temporary organization. While a majority of the committee are understood to be "stand-patters," it is asserted that they are not inclined to take action which may result in two Republican state tickets and possibly endanger not only both tickets, but probably two or three close congressional districts. The friends of Perkins, however, are seemingly confident that they will be able to control the situation.

Remarkable Escape From Death.

St. Paul, July 31.—B. F. Savage of Minneapolis, a laborer, went to sleep on the bluff at Fort Snelling and rolled over and fell to the railroad tracks 100 feet below. He was quite badly injured, but will recover. His escape from death is considered remarkable.

Chinese Student Killed.

Cambridge, Mass., July 31.—Cheng Shuen Pan, one of several young men recently sent here by the emperor of China to attend the Harvard summer school, died at the Cambridge hospital. He fell from an electric car and sustained a fracture of the skull.

There is just as good fish in the brine

As ever came out of the sea,

But you will take it out in fishing

Unless you take Rocky Mountain Tea.

Weather

Forecast—Showers tonight and Saturday. Cooler Saturday except north-east portions.

A PACKING house is to be built near Minneapolis by the Armour people which will be the third largest in the world, and the improvements will cost \$2,000,000.

THE Eden Valley Journal says Congressman Buckman, who has filed for renomination to congress, will have some opposition in the party but not enough to worry him or his friends.

W. E. CULPIN has announced that he will not be a candidate for congress in the Eighth district against Congressman Bede and from present indications the latter gentleman will have a clear field for the nomination.

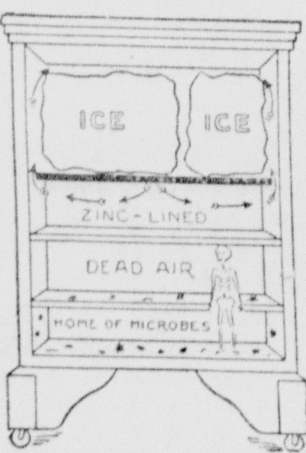

THE republican speakers' bureau in the coming campaign will be under the personal supervision of John J. Boobar, well known in this section as an old-timer in campaign work. Mr. Boobar is librarian of the house of representatives at Washington, and was previous to that secretary for Congressman Morris. The selection is an excellent one.

SOME of the eastern papers seem to be worried for fear the coming encampment of the old veterans at Minneapolis will not be properly taken care of for lack of accommodations. When it is over these same papers will be telling about the excellent manner in which the crowds were handled and the comfortable provisions made for the old soldiers. The country does not afford a place where a convention of the magnitude of the coming encampment can be provided for better than the Twin Cities, and western hustle and pride will not allow any provision that will add to the pleasure of the occasion to be overlooked. It is hoped the skeptics will be in attendance.

THE Elk River Star-News, published by A. N. Dare, has the following to say regarding the congressional situation in this district: The time is rapidly approaching when the republicans of the Sixth congressional district will be called upon to select a new congressman, or retain the present incumbent, Mr. Buckman has now held the present position two terms, and so far as can be learned has served the district satisfactorily to the general run of the people, and no fault is found with his record. Buckman had had considerable legislative experience before going to congress which added to his four years in congress, makes him a valuable man for the district, and, as experience, added to general public rectitude, is the chief asset of a successful congressman, it seems to us that it would be poor business sense to make a change at this

time. Mr. Buckman's opponent at the primaries has the reputation of being a capable young man of good character and was brought out by an element in the district that is entitled to respectful consideration, but, sentiment aside, good, practical business considerations would rather tend, in our judgment, to give long experience and familiarity with the duties of the position the benefit of any doubt in the public mind as to where its interests are.

CANADIANS ARE SLOW

Col. Kennedy Says Canadian Railroad Officials are Very Leisurely in Picking up Wreck

The Parker Amusement company was wrecked in the yards at Winnipeg Sunday and delayed eight hours. Col. Kennedy, the proprietor in speaking of the event to a DISPATCH representative, was somewhat disgusted with the slowness of our northern neighbors. After the wreck one official and then another would stroll up and look the situation over and walk off without saying anything, and it was fully four hours after the collision before a hand was lifted to clear away the wreck. And this was right in the yards in the metropolis of western Canada. A yankee roadmaster would have had the train on the track and out of the city before they started at it according to Mr. Kennedy.

Farmers, mechanics, railroaders, laborers rely on Dr. Thomas' Electric Oil. Takes the sting out of cuts, burns or bruises at once. Pain cannot stay where it is used.

DRINK WHEN YOU EAT

TAKE AS MUCH WATER AS YOU WANT WITH YOUR MEALS.

It Is Excellent For the Digestion, It Is Claimed, as Neither Gastric Juice Nor Pepsin Work Properly Unless Largely Diluted With Water.

How much water should we drink and when should we drink it are questions so simple that at first sight their discussion seems superfluous. One would naturally answer, "Drink all the water you wish when you are thirsty," but authorities say, "Drink more than you wish when you are not thirsty," for they recommend that a gallon or so be drunk between meals, which is more water than we need and the very time the system least demands it. Usually we experience thirst during or directly after eating.

Inasmuch as 87 per cent of the whole body is water, which is, of course, being used up every moment, there is no question that we should drink of this element copiously, but it is a serious question whether we should refrain from water at meals—the time we particularly desire it.

There is a class of persons, ever growing more numerous, that believes that whatever is wrong. For the natural and simple they would substitute the artificial and complicated. To drink water while or directly after eating is a natural instinct. Give a dog his dinner, putting a bowl of water near it, and observe that he will first eat all he can and then immediately drink. Wild animals look for a stream after feeding. Caged birds will stop pecking at seed to peek at water. Children have a perpetual thirst, and I have seen babies that, unlike young Oliver, have refused to eat more when denied water after every few mouthfuls.

It is especially important that babies be given what water they wish and at the time they wish it, which is usually at table.

The thinner food is the more easily and thoroughly it is digested; in fact, it cannot be digested until it has been made liquid by the gastric and intestinal juices. Indigestion is caused often by food that has not been sufficiently moistened by the digestive secretions.

There are sound physiological reasons for our craving water with meals. Water is the solvent that constitutes 95 per cent of the gastric juice. Now, when one eats a hearty meal and does not drink, the amount of water in the stomach is not sufficient thoroughly to moisten the great quantity of food, and this makes digestion difficult. On the other hand, when enough water is ingested with the food the latter is well moistened and broken up, the digestible particles being then readily acted on by the gastric juice and afterward absorbed. Again, when the partially digested food (chyme) passes into the intestines it is most important that it be very moist, particularly as water is constantly absorbed from the chyle in the large intestine. Bad cases of constipation are caused by dry chyle remaining in the intestines, where it sets up an inflammation that sometimes proves fatal, dry faeces, of course, resisting peristaltic action. The excrement of persons suffering from constipation is always dry and hard and is a potent cause of appendicitis.

The idea that water drinking at meals unduly dilutes the gastric juice is nonsensical, water being not so palatable that one is apt to drink more than his digestive functions require. As a matter of fact water generally facilitates the digestion of albuminous substances. In this connection Dr. A. Jacobi in his work on "Infant Diet," page 67, says:

"In experiments upon digestion of albumen with gastric juice obtained from the stomach of animals it was noticed that after a certain time the process began to slacken, but was renewed merely by the addition of water. The gastric juice became saturated with the substance it had dissolved and ceased to act upon what remained until it had been diluted. In the living stomach this dilution is of even greater importance, for it permits of the immediate absorption of the substances soluble in water and which do not require the specific action of the gastric juice." Neither the gastric juice nor pepsin has any true digestive action unless they be largely diluted with water.

It goes without saying that it is not the food that is ingested, but that which is digested, that does good, and this principle holds good with water, which is practically a food. Now, when one resists the perfectly natural desire to drink while eating he may be not thirsty several hours afterward, but he is advised nevertheless to force himself to drink at that time. But if he drinks then, the water, having no food to mix with it, will go through him, as it were—that is, it will do no good.

The importance of water to the human economy may be inferred from the various purposes it subserves. First, it softens and dissolves solid foods, thus facilitating their mastication and digestion; second, it maintains a due bulk of blood and the structures of the body; third, it keeps substances in solution or suspension while moving in the body; fourth, it supplies elements in the body's chemical changes; fifth, it makes easy the elimination of waste material; sixth, it discharges superfluous heat by transpiration through the skin and by emission through other outlets, and, seventh, it supplies in a convenient form heat to or abstracts heat from the body. Some of these functions are performed by water in its liquid state and others in a state of vapor.

Have you indigestion? Try water instead of drugs with your food.—G. Elliot Flint in New York World.

Good Fire Insurance

The following correspondence explains in part only, the strength of our companies and the CHARACTER of Fire Insurance this agency writes:

New York, July 26, 1906.

TO OUR AGENTS:

It may be of interest to our representatives to know what has been done by the Aachen & Munich Fire Insurance company in connection with the San Francisco disaster.

The Home Office, with remarkable promptness, remitted to our New York Bankers, Messrs. Ladenburg, Thalmann & Company, the sum of \$1,200,000 cash, in payment of the earlier adjustments.

A few weeks later we were advised that another Million Dollars cash was at our immediate disposal whenever required.

At a meeting of the Directors of the Company held at Aachen on July 17th, a resolution was adopted to the effect that all conflagration losses in California would be paid by funds remitted from the Home Office, leaving the United States surplus intact.

Up to this date 648 losses have been paid by the Aachen & Munich at San Francisco under policies aggregating in amount \$690,525, and the work of disposing of the remaining claims is being proceeded with as rapidly as possible.

We are more than pleased to state that the above is a fair sample of the kind of letters we are receiving from the different companies this agency represents. Insurance written in this office means absolute protection if a loss occurs.

Henry I. Cohen, First National Bank Block.

Roller Rink.

We wish to announce to the public that the roller rink will be open Wednesday and Saturday nights of each week, commencing Wednesday, July 11th. Your patronage solicited. Ladies free. ROLAND JENKINS, BERT ABEAR, Managers.

The Word "Cannibalism."

The word "cannibalism" is really the name of a people. It is identical with Carib, many of the Caribs, who formerly flourished in the West Indies, having been consumers of human flesh. The letters "l," "n" and "r" are interchangeable in certain aboriginal American languages, so that Columbus found one West Indian island saying "Caniba" where another said "Carib," while Shakespeare's Caliban is another variety of the same. Columbus' own conjecture was that the name was connected with the great khan, and later philologists of the old slapsdash type associated with "cannibals" a dog. Apparently, however, the meaning of "carib" was brave and daring.

One Fare for Round trip

from Chicago, plus \$4, for thirty day limit, and one fare for the round trip plus \$2 for fifteen day limit, to Canadian and New England points. Tickets on sale via Nickel Plate road, from Chicago, August 8th and 22nd. Information given upon application to John Y. Calahan, General Agent, No. 107 Adams St. Chicago, La Salle St. station Chicago—the only depot on the elevated railroad loop. 39t-taw5w

A Tragic Finish

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth Melver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at H. H. P. Dunn & Co's drug store, Brainerd, Minn. 50c and \$1.00. Trial bottle free.

Old papers for sale at this office.

CARNIVAL IS IN FULL BLAST

The Shows are all Running Today
and Free Attractions will
be on Tonight.

RAINY DAY IS A DAMPENER

Shows Were well Attended Last
Night, Prospects Good
for Tonight.

A carnival on a rainy morning is about as dejected and disheveled a creature as a hen in a thunder storm. There was a deserted and disheartened appearance around all the features and concessions of the carnival this morning, but as the day wore on more life was manifest and by noon the streets were a scene of activity. Owing to the delay caused by the wreck there were no free attractions shown yesterday afternoon or evening. The shows finally got in operation, the lights being turned on shortly before 9 o'clock. Those that opened up were well patronized and so far as learned gave good satisfaction.

The free exhibits will be in running order tonight. The "limit" and the lady's high dive will be pulled off at the corner of Laurel and Third streets, while "Leaping the Gap" will be performed on Front street just west of the hose house. The "Rag Time Village" and Switzerland will be located on Front street.

Beautiful Creation.

It is the biblical story of Genesis told in electricity, and its scenic grandeur fairly bankrupts the English language for description. When the curtain rises the earth is without form and void, and darkness is on the face of the deep. Then comes the light, and the division of light and darkness, the Eden in all its pristine beauty, happiness of man, the tempter, fall, the crime of Cain, the flood, the ark and the resurrection. All this is admirably depicted in electricity and scenic grandeur. A show that has been endorsed by press, pulpit and public for its beauty.

Hale's Tours of the World.

This popular amusement device that has proved so popular all over the country, is the product of Chief Hale, the veteran fire fighter of Kansas City. Entering the rear of an elegant Pullman car you are whirled through the most beautiful scenery and cities at the rate of 40 miles an hour. The ride is so realistic that the illusion becomes almost perfect. New scenes from any ever seen in this part of the country will be put on here, so that those who have seen Hale's tours in other cities can see something new on the "Merry Pike."

"Suearba," or Show Beautiful.

The magnet of the "Merry Pike" is Parker's "Suearba" the masterpiece of amusement production. This newest creation of marvelous mystery is one of the greatest of all the Parker shows. What the "Limit" is to all other acts, the greatest, so is "Suearba" of all other shows. It is one that will set the thinkers to thinking, and the talkers to talking. Shrouded as it is in deepest mystery, the spectators stand spellbound until the exposure, then they leave the performance with praises on their lips. This show is the only one of its kind in the world and is the result of the master showman's mind.

San Francisco and the Volcano.

The terrible destruction of the beau-

"SUPERBA" THE BEST WHY! IT IS

tiful city of the Pacific coast, by fire and earthquake, forms the nucleus of this performance. Showing as it does the city before, during and after the fire and earthquake, the performance is perfectly realistic, and the catastrophe is shown in all its reality. In connection with this there is shown the eruption of Mt. Vesuvius from which some scientists claim the earthquake was caused. You see the molten lava flowing down the mountain side, the houses crumbling to earth, and all the awful destruction caused by the terrible eruption.

Katzenjamer Kastle.

This is the fun show of the "Merry Pike" and we can no better explain it than to quote the following: An old gentleman emerged from the Katzenjamer Kastle last evening and wiping the perspiration from his face and tears from his eyes caused from hearty laughter, said: "I would not go through there again for \$100. I would laugh myself to death and I know it. Its the d— funniest place I ever saw. Go old fellow, its all right."

"Sunflower Belles"

The feature of the Pike is the Sunflower Belles, the high class musical comedy numbering 30 people. This show is the pride of the Parker management and is featured over all others, seating capacity for 2,000 people, well equipped stage and scenery. The performance consists of a beauty chorus, in new and up-to-date musical numbers, vaudeville acts, jugglers, acrobats, etc. This big show gives but 2 performances daily, afternoon at 3 and evening at 8:30. A visit to the "Pike" is not complete unless you see this show.

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn-out and all run-down. Bunkoed Blood Bitters made me a well woman."—Mrs. Chas. Freitoy, Moosup, Conn.

WRECK AT BARKER

Locomotive in the Ditch Between Carleton and Duluth—Fireman is Reported as Badly Hurt.

Roadmaster Tyler was called to Barker, a little station between Carleton and Duluth, on No. 14 this morning to look after a wreck on the Northern Pacific at that point. An engine and a couple of cars are reported in the ditch and the fireman was badly hurt and was taken to a hospital at Superior. Local railroad men have no information as to the number of the engine or the name of the fireman hurt.

Guilty of Stuffing Pay Rolls.

Chicago, July 31.—John A. Cooke, former clerk of the Cook county circuit court, who has been on trial for several weeks on a charge of stuffing pay rolls, was found guilty by the jury and his punishment fixed at imprisonment in the penitentiary and a fine of \$2,000.

Secretary Root at Petropolis.

Petropolis, Brazil, July 31.—Secretary Root and Lloyd C. Griscom, the American ambassador to Brazil, were entertained at luncheon here by Baron de Rio Branco, the minister of foreign affairs. Secretary Root conferred with the American delegates to the Pan-American congress.

FIVE PEOPLE WERE POISONED

Members of Family of Chas. O'Conner had Narrow Escape from Death

THOUGHT TO HAVE BEEN MEAT

Two were Dangerously Sick When Doctor Arrived, but Succeeded in Saving Them.

Mrs. Chas O'Conner, of 103 Ash avenue northeast, and four of the family had a narrow escape from death yesterday from poisoning. They were taken sick shortly after dinner and became rapidly worse. Dr. Nicholson was summoned about 4 o'clock and found Miss Maggie O'Conner almost unconscious and Miss Alice O'Conner very sick. Mrs. O'Conner, Miss Lizzie O'Conner and James O'Conner were sick but less severely so.

They had all eaten dinner and had partaken heartily of smoked ham, potatoes, bread and butter, etc., so that it is rather hard to be certain as to the cause. The symptoms resembled salicylic acid poisoning, but from what Dr. Nicholson is unable to state. The remaining ham will be submitted to the authorities for examination and analysis. They are all out of danger and nearly as well as ever today.

Only 32 Years Old.

"I am only 32 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson, of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by H. P. Dunn & Co. druggist, Brainerd, Minn. Price 50c.

"SUPERBA" THE BEST WHY! IT IS

SUMMER SCHOOL PICNIC

Faculty and Students of Summer School Enjoyed Themselves Hugely at Rice Lake Yesterday

The picnic yesterday at Rice lake was a success from start to finish. The weather could not have been better. Everything came off on schedule time. The lunch was elaborate and very tastily arranged. The events were very hotly contested.

The 50 yard dash was won by Miss Cass. Miss Van Sickle won the lemon race. The potato race was very exciting and was won very handsly by Miss Rose with Miss Cass a close second, Miss Phelps third.

The blind race was won by Miss Connor.

The superiority of the Cass county girls became very evident in the tug of war between Cass and Crow Wing. It was a very exciting contest.

The gypsy palmist and clairvoyant, Madame Cleo De Mesedeas was a success from start to finish. The madame has remarkable talent in palmistry and her many predictions will be enjoyed especially by several of the young ladies present.

The steam launches loaded to the guards with a hundred happy young people for a moonlight boat ride on the beautiful Mississippi formed a fitting close to a most enjoyable occasion. No accidents happened to mar the pleasure of the day.

A great deal of credit for the success of the affair is due to the able management of Supts. Nelson and Larson and Payne and Miss Burrall, also the several committees.

Tomorrow is the last day of the summer school. It has been a very successful affair. The attendance reached a total of 140 with an average of over 100. The students have been of a kind which augurs well for the next year's work in the country schools.

County Superintendent Wilson says that his has been the most profitable summer school ever held in Brainerd. He also says that Brainerd is becoming the most popular summer school town in the state.

PUT OUT FIRE

Joe Weitzel Saves the Residence of Mr. Merrick Near North Long Lake Sunday Night.

Joe Weitzel and the Misses LeMay had a strenuous and somewhat exciting experience Sunday night. They were on the road toward North Long lake and when they passed the residence of Mr. Merrick flames were issuing from the building. Mr. Weitzel aroused Mrs. Merrick and the children, who were asleep in the house, Mr. Merrick being in Brainerd. After getting them out they turned their attention to saving the building, the Misses LeMay carrying water while Joe climbed onto the building and fought the flames. They succeeded in saving the house with only nominal damage. Had they not happened along just as they did the house would certainly have been destroyed and the inmates might have perished also.

"SUPERBA" THE BEST WHY! IT IS

Complexion treatments are a necessary part of the grooming of a well preserved woman. It is not so much a matter of how you look today, as how you will look tomorrow. Hollister's Rocky Mountain Tea does the business. Tea or tablets, 35c. H. P. Dunn & Co.

SHAVE WITH HOT STEEL.

An Old Coder's Advice to Men Who Use a Razor.

"Whenever I hone a razor," said an old English cutler, "I always give some advice with it, free, gratis, and I take great satisfaction in knowing that I have made shaving easier and more comfortable for more than 10,000 men. Almost every barber will tell you how to strop a razor, but it takes a cutler to tell you how to care for your strop and how to get the best work out of your blade.

"A swing strop, canvass on one side and horse hide on the other, is the best. Always hold it taut and draw the razor lightly, but swiftly, from heel to point. If you let the strop sag you will put a round edge on your blade. Don't forget to cover your strop or put it away in a drawer after using. If it hangs in a bathroom near a window the dust and grime get into it and soon take the edge from your razor. Whether you keep the strop covered or whether you don't, rub your open hand over the two surfaces to free it from dust.

"But what I consider my most valuable advice is how to do away with shaving paper entirely and at the same time improve the cutting quality of the razor's edge. Nine men out of ten shave themselves in a room where there is running hot water. Now, the way to get a most gratifying result is this: Lather thickly and well and let it remain on the face half a minute before you begin to shave. If you have time wash it off, for with it will come the grit and dirt that you have loosened up in the pores of the skin, and then apply a second coat. It will be as soft, smooth and clean as new velvet.

"Now turn on the hot water faucet and let it run. Hold the razor under the stream until it is heated. Then take a slanting, or diagonal, stroke, like a farmer does with a scythe, not a square pull, and you will be amazed to find how beautifully and easily the hot blade cuts the beard.

"When it is filled with lather hold it under the running hot water instead of using shaving paper. This will wash off the lather and at the same time heat the blade again. Don't be afraid of taking out the temper. That would be impossible if you put the razor in a kettle and boiled it. Try the hot blade and you'll never shave with the cold steel again."—New York World.

There Are No Certain Ones.

"The only objection I have to this story," said the cynical bachelor, "is the frequent use of the phrase 'a certain girl.' The phrase is grossly inaccurate, as everybody well knows that all girls are exceedingly uncertain."—Chicago News.

SECURES A DIVORCE

MRS. WILLIAM ELLIS COREY OBTAINS A SEPARATION FROM STEEL MAGNATE.

JURY OUT BUT A SHORT TIME

CUSTODY OF THE SIXTEEN-YEAR-OLD BOY IS ALSO GIVEN TO THE WOMAN.

Reno, Nev., July 31.—Mrs. William Ellis Corey, wife of the president of the United States Steel corporation, was awarded a divorce in the Second district court of Nevada, sitting at Reno, at 2 p. m. The case was submitted without argument and the jury took but one ballot. It was out but a few minutes.

Mrs. Corey was in tears when told that she had been given a decree and the custody of her sixteen-year-old son, Allan Corey. She drove at once to her home on Riverside avenue, where she says she will continue to reside. No evidence was submitted by the defense and there was no argument.

The question of alimony was not introduced. Mrs. Corey made an interesting admission, however, touching upon this phase of the case, stating that in May, 1906, several weeks before her petition for divorce was filed, she negotiated through her attorneys a financial settlement with her husband. She was not asked what the nature of this settlement was.

"I am a resident of Reno, Nev.," said Mrs. Corey, when placed on the stand, "and the wife of William Ellis Corey, the defendant in this action."

Married Twenty-three Years Ago.

We were married on Dec. 1, 1883, at Pittsburg, and lived together until May 1, 1905. At that time my husband deserted me and went to New York. I followed him and held a conversation with him in the Hotel Lorraine. It was there that he told me that he had decided to live apart. He said that it was impossible for us to live happily together and that I would never see him again. He stated that he intended going to Europe for several months. There was no scene. I talked with him about the matter and urged him to again resume his place in our home, but he refused. I have never seen him since.

Mrs. Corey added that she came to Reno for her health and that she had no intention of bringing an action for divorce at the time she took up her residence in Nevada. She stated that she selected Reno upon the advice of her sister-in-law, Miss Addie Corey; that they considered this place their future home and expected to live here in the future. She stated that she was best suited for the custody of her son and asked the court to place him in her care.

Mrs. Corey was very much affected while telling her story. She testified without evasion and in a clear voice. Her attorneys feared she would collapse, as her health has suffered since the separation.

In an open statement by her attorney, J. R. Redding of New York, Mrs. Corey said she had been driven to a separation and the divorce proceedings by the sensational newspaper stories.

MURDER AND SUICIDE.

Cripple Kills His Wife and Fatally Wounds Himself.

Union City, Ind., July 31.—Samuel Demont, a cripple, shot his wife through the heart and head, instantly killing her, and then fired two shots into his own body, one in the breast and one in the head. He is not expected to survive. Three years ago Mrs. Demont received \$600 for the death of a son caused by an explosion and this money became a bone of contention between the two and led up to the shooting.

Rush Work on Wellman's Airship.

Tromsøe, Norway, July 31.—Forty men are working day and night to get the airship of the Wellman-Chicago Record-Herald expedition toward the North Pole this summer. The big balloon house will be finished in a fortnight, and the monster airship may be able to start for the north the latter part of August.

Oku Succeeds Kodama.

Tokyo, July 31.—General Oku has been appointed chief of the general staff of the Japanese army in succession to General Baron Kodama, who died July 22. General Oku commanded the Left army during the Russian-Japanese war, and achieved a series of brilliant victories.

Robbed and Murdered.

Madison, Wis., July 31.—The dead body of Joseph Bardenheir, a butler, missing since last Monday, was found in the woods three miles from here. He had been robbed and murdered. Bardenheir came here from Chicago about three months ago.

King and Kaiser Will Meet.

London, July 31.—The Daily Telegraph says a meeting between King Edward and Emperor William now has been definitely arranged to take place in Germany the coming autumn.

MURDERER STILL IN JAIL

No Attempt Made by Mob to Lynch Elmer Dempster.

Washington, Pa., July 31.—Up to midnight no attempt had been made to take Elmer Dempster from jail. The negro is charged with the murder of Mrs. Samuel Pearce and her children at Canonsburg Sunday night. The excitement which prevailed upon the arrival of the officers with the prisoner subsided during the night and all danger of a demonstration is apparently over. Dempster made several confessions during the day and late at night made a clean breast of the Canonsburg tragedy, which admitted that he killed Mrs. Pearce and the children. In a supplementary confession he cleared up another murder mystery, which has led to the arrest of two other negroes. These men were arrested by the Washington county officers Monday night, who, upon Dempster's information, went to the mines of the M. A. Hanna Coal company in Cherry Valley near Burgettstown and took the men as they came from their work in the mines. The names of the men are Patterson and Bucher, and they are charged with the murder of John Koboda, a wealthy foreigner who was found dead in a clump of bushes along the Wabash railroad tracks in Independence township on May 1. The men were placed in the McDonald lockup, near Burgettstown and will be brought to the county jail here. Dempster further confessed that he had served time in Allegheny, Lafayette, Westmoreland and twice before in Washington counties.

Mayor and Aldermen Resign.

Havana, July 31.—The mayor of Havana and all the aldermen have resigned in anticipation of a request for their resignations by President Palma. The government has long contemplated replacing the entire city government with new men. The dissatisfaction with the late mayor and aldermen was partially on partisan grounds and partly on charges of incompetence and graft.

TELEGRAPHIC BREVITIES.

John Lawrence Toole, the comedian, is dead at Brighton, Eng. He was born in London in 1830.

Union teamsters from all over the United States will hold their annual convention in Chicago next week.

An understanding has been reached between Switzerland and France on the subject of a commercial treaty.

The Commercial Law League of America is in convention in Asheville, N. C., with nearly 300 delegates in attendance.

A. C. Close, a laborer at the Minnesota Transfer, between St. Paul and Minneapolis, was found along the track bed beneath the trucks of a box car and he will die.

Harry Mitchell, aged seventy, an old soldier and one of "Buffalo Bill's" scouts when fighting for the government, is dead at his home near Berrien Center, Mich., of old age.

Following a threat to end his life, the dead body of Emerson Becker, aged fifty years, was found suspended from a cord attached to a gas jet in the basement of the main building at the county poorhouse at St. Paul.

THE LETTERS TO TOM MADINE.

Evidence in Hartje Case Shows How They Were Obtained.

Pittsburg, July 31.—The beginning of the sixth week and what is expected to be the final week of the Hartje divorce trial was taken up with the long expected evidence as to the manner in which Augustus Hartje procured the love letters alleged to have been written by Mrs. Mary Scott Hartje to "Tom" Madine, the coachman correspondent in the case. John B. Staubb, a private detective, swore that on two occasions he opened Madine's trunk at the house in which Madine roomed. He declared that after the letters had been shown to Andrew Fisher, Hartje's brother-in-law, they were mailed by Staubb to Attorney J. Scott Ferguson, chief counsel for Hartje.

Staubb was subjected to a vigorous cross-examination. He was unable to tell what other articles were in the trunk and several times became tangled under the fire of cross-examination.

Detective Anderson corroborated Staubb in regard to the second looting of the trunk. The superintendent of the detective agency also testified as to the directions given his men and receiving the letters from them.

Andrew Fisher, brother-in-law of Augustus Hartje, was the last witness of the day. He assumed responsibility for directing the detectives and said the attorneys for his brother did not know where the letters came from until he told them.

Incidental to the story of the robbery of the Madine trunk, it developed that a letter and telegram signed by John F. Scott, father of Mrs. Hartje, was found in the trunk along with the forty honeyed missives, which the wife of the millionaire is charged with writing.

It is alleged that a paragraph in this letter read:

"On the advice of Mr. Freeman, I am sending you \$60."

Neither the telegram nor letter were read in court.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
